

HYDRAULIC ACCESSORIES / OIL TANKS

We design and machine aluminium, fibre-glass and carbon fibre oil tanks complete with accessories, air pressure gauges, fittings and oil level.

For race-cruiser and pure racer sailing yachts, we offer light-weight carbon fibre oil tanks in different sizes and custom arrangements.

Carbon fiber and fiberglass oil tanks are available in 3 different size and capacity:

- SCP_2.1: 2.1 liters, L=250mm
- SCP_5.1: 5.1 liters, L=600mm
- SCP_9.4: 9.4 liters, L=850mm

Carbon fibre oil tanks: 2,5 and 9 litres volume.
On the right: custom arrangements for VOR 70

Standard pressurized oil tanks,
2 and 4 litres volume

Custom pressurized carbon
fibre oil tank, 8 litres volume

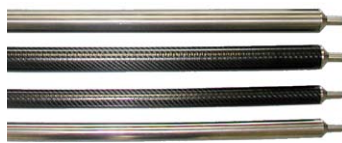

HYDRAULIC ACCESSORIES / MANUAL PUMP HANDLES

Cariboni supplies his manual alternate pumps with stainless steel, carbon fibre or titanium handles.

The stainless steel handle is the standard handle, supplied with different length starting from 500mm. For race yachts

we offer two different kind of carbon fibre handle, available in different lengths. The titanium model is the best choice for customers who want to improve efficiency and cut down weight.

MODEL	O.D.		Lenght		Pin diameter		Weight	
	mm	in	mm	in	mm	in	kg	lb

Titanium	31,8	1,25	800	31,50	12,7	0,5	0,730	1,609
Carbon 32	32	1,28	800	31,50	12,7	0,5	0,518	1,142
Carbon 25	25,2	0,99	750	29,53	12,7	0,5	0,346	0,763
SSteel500	25,0	0,98	500	19,69	12,7	0,5	0,558	1,230
